Dear Colleagues,

As per Government of Nagaland Order No. CSO/GAB-1/COM/GEN-1/2020, Dated 22/03/2020, Dental clinics are exempted from the Partial closure of Markets and Establishments throughout the state from the midnight of 22nd March 2020. The Nagaland State Dental Council requests all the Dental Clinics to reschedule and immediately suspend all non essential and elective dental procedures, as we come under the HIGH RISK PROFESSIONAL CATEGORY for transmitting COVID-19. However, emergency and such other conditions requiring immediate attention may be taken up.

You are also directed to limit to only essential cases and avoid the use of any equipment that will generate Dental Aerosol like Air rotor Handpieces, Ultrasonic scalers, Air Polishers etc in the interest and welfare of public health.

Kindly follow strict safety protocols and preventive measures in the waiting area and operatory for the safety of the patients as well as yourself.

Yours Sincerely,
